THE 2017 AUSTRALIAN
WINTER SCHOOL CONFERENCE

CROSSROADS

COORDINATE • COLLABORATE • INTEGRATE

27-28 JULY 2017 • BRISBANE

Join us in Brisbane to **COORDINATE**,
COLLABORATE and **INTEGRATE** to enhance
our alcohol and other drug treatment
sector. **SHARE** your work and **INSPIRE**
others.

For more information on the 2017 conference and
to submit your abstract go to www.winterschool.org.au

SAVE THE DATE

Crossroads is the theme of the 2017 Australian Winter School. We are exploring and highlighting the complex intersection alcohol and other drugs have with other sectors. We are drilling down into prevention, treatment and harm reduction to unpack when and why we choose to COLLABORATE, COORDINATE and INTEGRATE across services and sectors. We are inviting:

- **our workforce** – increasing skills and knowledge and collaboration potential while gaining greater awareness of trends and issues to develop your practice and career potential;
- **external partners** – Connecting and sharing with health and other professionals that intersect with the alcohol and other drug treatment space;
- **the community** - exchanging views and experiences on how the alcohol and other drugs sector has and is responding to past and emerging challenges and needs and collaborating to identify opportunities that enhance recovery experience for people and their families;
- **the sector** – together through coordinating, collaborating and integrating we can expand and strengthen to achieve our united potential as a sector. Through advocacy we can influence policy and decision makers.

There's something for everyone - our 2017 streams

The program will include plenaries, multiple concurrent sessions and workshops on a range of issues including:

- harm reduction

- treatment

- prevention
